Cortijo el Moro sits on the edge of the Sierra de María-Los Vélez Natural Park, Almería, and experiences a mediterranean climate. However, at approximately 900 metres above sea level the air is fresh and pure, with nature in abundance - including daily sightings of the magnificent Griffon Vultures; with an average 325 days of sunshine throughout the year, the light is incredible.

Built in the 16th century, the imposing castle of Vélez Blanco is an outstanding example of Spanish Renaissance. Providing an awe inspiring backdrop to the village and with daily open access, this is a fabulous place to visit, soak up the history and be inspired.

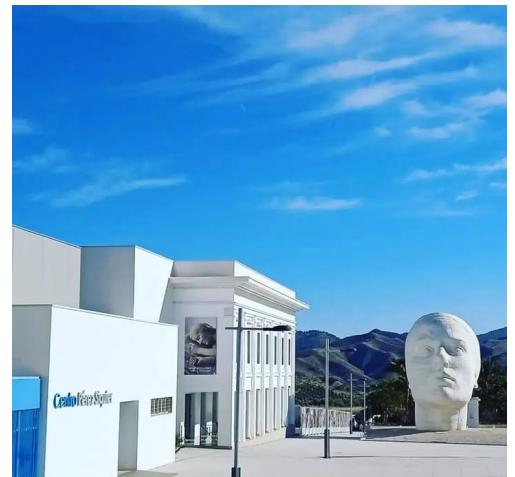

The village of Vélez Blanco has a population around 2,000 inhabitants. Aside from the castle, located just outside the village are the caves of Los Letreros, which house the now infamous Indalo Man drawings and early cave art (residents wishing to visit the caves may need to arrange this in advance). Vélez Blanco also has a museum, a theatre, a weekly market (Wednesday), an outdoor swimming pool (open mid-June to 1st September), several bars and restaurants offering authentic Andalucían tapas and a traditional wash-house where you can still

find residents from the village washing their smalls! Residents can also collect fresh spring water from the village, which runs down from the Sierra de María, we promise you, you are unlikely to ever taste water as good as this!

Vélez Rubio is the nearest town to **Cortijo el Moro**, 7km away. This town has a population of around 6,000 inhabitants, as such this is the working town for the Los Vélez area. Here you will find services such as printing and laser-cutting, a fantastic museum (open Wednesday to Sunday), theatre (with frequent flamenco music), a library, post office, several gyms, a selection of shops, bars and restaurants, a small park, an olympic sized swimming pool (open mid-June to 1st September) and a lively Saturday market. The impressive Parish Church of 'Our Lady of the Incarnation' is also located in the main square in Vélez Rubio, this is an important architectural example of the final evolution from the Baroque to the neoclassical.

For those wishing to explore a little further afield, it is possible to take a bus from Vélez Rubio to Granada (approx. 2hr journey). The village of Orce, approximately 45 minutes by car from **Cortijo el Moro** is a beautiful place to visit for a tapas lunch, a swim in their natural swimming pool - shared with the fish (open all year round) and the museum of the 'First Human Settlement in Europe'.

A little further, and again only accessible by car, is the town of Olula del Rio, where the wonderful 'Museo Ibañez' is situated. An excellent museum, which contains in its interior one of the largest and most representative contemporary art exhibitions in Andalucía. The museum houses more than 1,200 iconic pieces of

contemporary art, with works by Goya, Lopez Mezquita, Paco Lopez, Los Madrazo, Chicharro and Sorolla.

The coastline of Costa Cálida, Murcia is just under an hour away. This unspoilt coastline has some fantastic beaches, including Playa de Los Cocedores, and the town of Aguilas. A little further up the road is Pulpí Geode, one of the largest crystal caves ever found.
